Digital Payment Technologies Ranked 40th Fastest Growing Technology Company in Canada in 2007 Deloitte Technology Fast 50

Second year in a row receiving Canada's most prestigious technology award

Vancouver, B.C. – Digital Payment Technologies Corp. (DPT), has been named to the prestigious Deloitte Technology Fast 50 for the second year in a row. The Deloitte Technology Fast 50 is a ranking of the 50 fastest-growing technology companies in Canada, based on the percentage of revenue growth over five years. DPT's increase in revenues of 443 percent from 2002 to 2006 resulted in a 40th ranking.

Over the last decade, the Deloitte Technology Fast 50 program has tracked the successful growth of Canadian-grown global leaders such as Research in Motion (RIM), which has ranked among the Deloitte Technology Fast 50 every year since the program's inception in 1997. Now Canada's pre-eminent technology award program, the Deloitte Technology Fast 50 augments the broader Deloitte North American Technology Fast 500 initiative, with winners automatically eligible for this elite ranking.

"Transforming technological innovation into business success is hard, and it's especially difficult to sustain such rapid revenue growth over five years. Digital Payment Technologies has rapidly built a highly successful company in the Canadian technology industry and we applaud its dedication and ability to transform vision into reality," says John Ruffolo, National Leader, Technology, Media & Telecommunications Industry Group, Deloitte.

DPT's CEO Andrew Scott credits the company's execution on its plan to be at the forefront of the parking industry in terms of technology and customer service. "Our appearance on the Deloitte Technology Fast 50 ranking for the second year in a row is a great honour and a testament to the dedication of our employees and the support of our clients," says Scott. "The North America markets have responded positively to our vision and we anticipate our growth will continue into the future."

About Digital Payment Technologies Corp.

Digital Payment Technologies is an innovative leader in the design, manufacture and distribution of leading-edge revenue-management hardware, software and wireless solutions for the multi-billion-dollar parking industry. The company's products provide complete financial tracking, control and reporting on parking revenue collected by cities, municipalities, universities, parking management companies, private operators and national parks, from customer payment through to bank deposit. Recently certified to the PCI standard, DPT is the only on-street multi-space parking meter manufacturer to achieve this recognition. DPT was also recently named Emerging Company of the Year by the British Columbia Technology Industry Association.

About the Deloitte Technology Fast 50

This year marks the 10th anniversary of the Deloitte Technology Fast 50 program, which celebrates business growth, innovation and entrepreneurship. The program features four distinct categories including the Deloitte Technology Fast 50 Ranking, Companies-to-Watch Awards (honouring early-stage Canadian technology companies in business less than five years), Leadership Awards (Deloitte Technology Fast 50-ranked companies that demonstrate leadership in each of the four industry sub-categories of emerging technologies, hardware, software and telecommunications) and the Deloitte Technology Green 15 Awards (honouring companies creating innovative and economically-viable intellectual property in the burgeoning field of green technology). Deloitte Technology Fast 50 winners are automatically eligible for the prestigious Deloitte Technology Fast 500 ranking. Program sponsors include Deloitte, Gowlings, GrowthWorks, CIBC World Markets, Stonewood Group, Behr & Associates and CATAAlliance. For further information, visit www.fast50.ca or call 1-888-6FAST50.
